

PROV VERS Compliance Vendor Progress Report - February 2008

Introduction

The Public Record Office Victoria (PROV) VERS Compliance team works with vendors that wish to achieve certification against the VERS Standard. The team also regularly reports on vendor progress towards certification to interested stakeholders in Victorian Government.

This report provides information regarding vendor activity with regards to achieving VERS Compliance within a particular month.

For information on any previous activity involving a particular vendor please refer to previous reports or the VERS Compliance website.

Background to VERS certification

There are five specifications that comprise the full VERS Standard:

Specification 1 - System Requirements

Specification 2 - Metadata Scheme

Specification 3 - Standard electronic record format

Specification 4 - Long-term preservation formats

Specification 5 - Export of electronic records to PROV
