

Xmas Incentive/Special Offer

RecFind 6 Two for One

It seems like most years we close out the calendar year with a special Xmas offer; it has become a tradition. This year, because of the impact of the global financial crisis (GFC), it seems to be more appropriate than ever because our customers all around the world are telling us that budgets are tight and that they are still cutting costs.

A recent offer to lower the cost of our ASU (get 3 years for the cost of 2 years etc) was enthusiastically taken up so we know value is really important just now. Our customers need a way to stretch their budgets until the world economy returns to normal and we have to play our part.

Because RecFind 6 has also been so enthusiastically received and because RecFind 6 can be used to solve multiple business application needs, we figured that more licenses at lower cost would be the most appropriate offer we could make this year. It is obviously difficult to solve multiple business problems with RecFind 6 if you don't add more user licenses; ergo, this special 2 for 1 offer.

Timeframe

Up until December 31, 2009

Offer

Order more RecFind 6 concurrent user licenses and receive one free license for every license ordered. For example, order 10 additional licenses and receive 20.

Conditions

The quote will included a pro-rate upgrade to your ASU to cover the extra licenses.

Does this apply to K1 customers too?

Yes, because your next upgrade will be RecFind 6 version 2.2 (the merged product).

To take advantage of this offer please email our Corporate Accounts Management (CAM) department at sales@k1corp.com and put "Xmas Incentive" in the subject line of your email.
